

# 2020 APPRENTICESHIP ENTERPRISE TEST ANALYST

## Kaleidocode Pivot Great Opportunities, Great Outcomes

---

KC Pivot (KCP) is a leading Systems Company that delivers **enterprise software** whilst developing **young software professionals** via powerful internship programs. Accelerate your career in our 12-month **test analyst apprenticeship** by gaining vital commercial experience and learning lifelong software principles that will put you ahead of your peers.

### 90 Day Bootcamp Experience.

Learn and practice Behaviourial Driven Development, Analytical Techniques, Test Design and Planning, Test Cases and execution, as well as Security Testing, Load and Performance Testing. Grapple with practical software testing patterns and practices with hands-on coaching from experienced software testers during an intense Bootcamp. Develop your skills using KATA principles and by getting expert input.

### Enterprise Team Experience.

Join an enterprise software team as an apprentice, receive coaching and encouragement from experienced team members to achieve your skills goals. Work with complex production software, learning firsthand how software is built and tested in an agile high performance team. Contribute to the product code base, quality and user experience.

### Certify as a ISTQB® Foundation Tester.

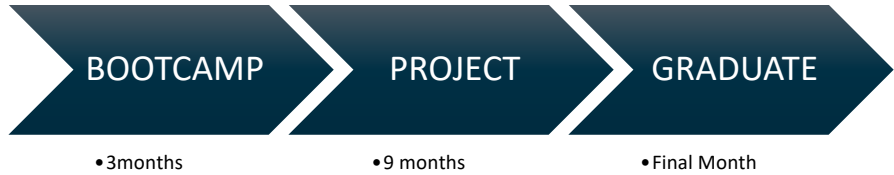

We will give you the practical experience and the tuition to certify as a ISTQB® Foundation Tester. ISTQB® Certified Tester is the most widespread qualification scheme in the world, and the syllabus has become the industry reference for the software testing profession. You will enhance your career path and develop your testing skills when you gain your certification with us.
